

The following application was submitted to the MARGINS Office:

Name:

William Dietrich

Category: Professor

Address:

Earth and Planetary Science
UC Berkeley

Berkeley, CA 94720
usa

E-mail: bill@seismo.berkeley.edu

Phone:

Fax:

Statement of interest:

Given the purpose of comparing systems, it might be useful for me to attend to both comment on the Fly River and to learn about the Waipaoa River. I also have been collaborating with Yantao Cui on a sediment routing model of coarse sediment that might have some application in the Waipaoa system. Given limited participation, I fully understand if I can not be included at this meeting.

Short resume:

William E. Dietrich
Professor
Geomorphology
UC Berkeley
