

Question 1 Comments

question 1 comments

Computer Science

Biology, Geology

Env. policy/mgmt/law

Policy & law

Graduate level Chemistry classes

Biol and Chem grad courses

biostatistics

unsure

applicable computer classes

GIS, Policy

invert. Zoology, ecology

Environmental Law, Biochem, Stats.

any that are applicable

question 1 comments

env. Law, Arts & Sciences science courses related to marine/envtl sci. (I.e. atmospheric chem, etc.)

public Policy, Env. Law

policy type courses, computer application courses

I don't know yet. I'm a first year student but I like the idea.

pub policy/env. Law & policy

Arts & Sciences bio department

Physics, Engineering, Comp. Sci.

I don't know but it seems like a good idea to capitalize other academics and strengths at W&M

I think it is a good idea for those interested in public policy, etc. though it doesn't affect me directly

public policy, environmental education

policy & law

environmental law, links with Public Policy should definitely be strengthened.

education, mathematics

The more opportunities available to us, the better

Environmental Law, Biochem, Stats.

question 1 comments

chemistry, public policy

Some marine public policy courses

biology

Any environmental law,
Math/stat courses

Molecular/Cell/Immune biology

Public policy, Law

Chemistry and Applied Sciences
