

Tie-Dye Stingrays

Instructions:

1. Pick up a coffee filter and fold it in half.
2. Color the coffee filter with the washable markers – you can do stripes, spots, whatever you want!
3. Have an adult help you spray the coffee filter with water and watch what happens to the color!
4. Let the coffee filter dry, and then fold it along the sides so that it looks wavy like a stingray body.
5. Add a pipe cleaner tail and some eyeball stickers!
6. Bring your new stingray home with you 😊
