Appendix I.5. Conservation Easement between John W.C. Catlett, Charles Catlett and Mary Armistead Catlett Burruss, and W&M for the Catlett Island Component of CBNERRVA.
NOW THEREFORE, as an absolute gift of no monetary consideration ($0.00) but in consideration of the mutual covenants, terms, conditions, and restrictions hereinafter set forth, the Grantors hereby grant and convey to the Grantee, its successors, and assigns forever and in perpetuity a Conservation Easement in Gross ("Conservation Easement") for the purpose of research, observation, and education and to the extent hereinafter set forth with respect to the Catlett Islands.

To achieve these objectives, the following conditions and restrictions are set forth:

ARTICLE I. DURATION AND GENERAL PURPOSE

1. General Purpose - The purpose of this Conservation Easement is to preserve and protect the environment of the Catlett Islands and to maintain permanently its natural and cultural values and its dominant scenic, rural, woodland, and wetland character so that the property remains suitable for long-term research on natural and human processes occurring within the York River tributary of the Chesapeake Bay. The Grantors and Grantee intend to confine the use of the property to such activities, including, without limitations, those involving hunting, trapping, fishing, gathering oysters, naturalistic uses, and estuarine reserve research purposes.

2. Duration - This Conservation Easement shall be perpetual. The covenants agreed to and the terms, conditions, restrictions and purposes imposed with this Conservation Easement shall not only be binding on the Grantors but also their agents, personal representatives, heirs and assigns and all other successors to their interests and shall continue as a servitude running in perpetuity with the Catlett Islands.

ARTICLE II. MANAGEMENT OBJECTIVES

3. Management Plan Preparation and Implementation - There shall be a Management Plan prepared for the Catlett Islands to provide general guidelines for the current and future use of the property. The Management Plan shall address appropriate wetlands and forest management activities, wildlife and waterfowl needs, and research and education uses of the Catlett Islands, and it shall provide any other applicable guidelines for the conservation of natural resources.

The Management Plan shall be prepared by VIMS, in consultation with other resource management agencies of the Commonwealth, and shall be submitted to be the Grantors and Grantee for their review and approval, within 6 months of the execution of this Conservation Easement. The Grantors and Grantee shall meet at least annually, and more frequently at the request of either party, to review the Management Plan and research results and, where appropriate, to develop more specific recommendations for carrying out certain aspects of the Plan. The Management Plan shall be updated at least every 5 years.
4. **On-Site Management** - VIMS is the agency designated by the Grantee and the Governor of the Commonwealth of Virginia to manage the Chesapeake Bay National Estuarine Research Reserve System in Virginia. In this capacity, VIMS shall serve as on-site manager for research at the Catlett Islands and shall be responsible for seeing that research conducted on the property is conducted in a manner consistent with the goals of the Chesapeake Bay National Estuarine Research Reserve System in Virginia, the objectives of the Management Plan, and the wishes of the Grantors and Grantee. The on-site manager will be the Grantee’s primary representative for the purpose of monitoring the uses of the property for consistency with this Conservation Easement.

5. **Natural Area Preservation** - The Catlett Islands shall be maintained as open space, wildlife and waterfowl habitat, and a natural field laboratory for research and education. Any industrial or commercial activities shall be prohibited on the Catlett Islands. The protection and conservation of the land subject to this Conservation Easement will be maintained and enforced consistent with the goals and policies of the Chesapeake Bay National Estuarine Research Reserve System in Virginia.

6. **Research and Education** - The Catlett Islands shall be maintained for research and education activities associated with the Chesapeake Bay National Estuarine Research Reserve System in Virginia. Research and education uses of the Catlett Islands shall be in accordance with the principles, objectives, and performance standards set forth in the Management Plan developed by VIMS and approved by the Grantors and Grantee. A steering committee will be convened by VIMS to assist in the review and approval of proposals for research and education activities at reserve sites. Such approval shall not be unreasonably withheld.

7. **Information Exchange** - Research and education activities conducted at the Catlett Islands shall be used to enhance awareness, understanding, and wise use of estuarine environments. VIMS shall provide the Grantors and Grantee with an annual report on research and education activities conducted on the Catlett Islands and shall disseminate timely and accurate information to the Governor, General Assembly, State and local agencies, industry, and citizens of the Commonwealth regarding the living and non-living resources of the Catlett Islands and their relationship to the Chesapeake Bay system and the coastal waters of the Commonwealth of Virginia.

**ARTICLE III. CONTROLLED ACTIVITIES**

8. **Wetlands and Forest Maintenance** - Wetlands shall be protected and maintained in accordance with the Management Plan and the Wetland Guidelines developed pursuant to Chapter 2.1 of Title 62.1 of the Code of Virginia. Forest management activities shall be conducted in accordance with the Management Plan and Best Management Practices promulgated by the Commonwealth of Virginia, Division of Forestry, and recommended by the U.S. Department of Agriculture, Forest Service and Soil Conservation Service. There shall be no other destruction or alteration of wetlands or forests on
the Catlett Islands, except as needed to eradicate noxious plant species or reestablish native plant species and as approved by the Grantors and Grantee. Management activities shall not materially impair the scenic quality of the Catlett Islands.

9. Waterfowl and Wildlife Maintenance - Waterfowl and wildlife maintenance activities shall be conducted in accordance with the Management Plan. In general, such activities shall be limited, where necessary, to maintenance of existing habitat and minor improvements (such as tree thinning to improve understory vegetation, or opening of small areas to provide a greater diversity of habitats) and as approved by the Grantors and Grantee. Any waterfowl and wildlife management activities shall be carried out under the guidance of the Commonwealth of Virginia, Department of Game and Inland Fisheries and the U.S. Department of the Interior, Fish and Wildlife Service. Any plant and insect management activities that may affect species of plants or insects protected under the Virginia Endangered Plant and Insect Species Act shall be carried out under the guidance of the Virginia Department of Agriculture and Consumer Services.

10. Hunting and Fishing - Any hunting shall be carried out in designated areas on and around the Catlett Islands and in accordance with conditions established in the Management Plan and approved by the Grantors and Grantee, and in accordance with rules and regulations promulgated by the Commonwealth of Virginia, Department of Game and Inland Fisheries. The Grantors, or their assigns, may place noncommercial blinds on the Catlett Islands for personal use. Any fishing shall be carried out in accordance with regulations promulgated by the Virginia Marine Resources Commission.

11. Water Quality - There shall be no human activities on or uses of the Catlett Islands that are detrimental or adverse to the maintenance and conservation of surface and subsurface water quality. There shall be no manipulation or alteration of natural water courses, shorelines, marshes or other water bodies, nor shall there be activities conducted on or around the Catlett Islands that could alter either natural water level, flow, or both.

12. Structures, Roads, and Trails - Except as otherwise provided in this Conservation Easement, no new buildings, facilities, structures, piers, roads, or trails shall be constructed on the Catlett Islands, except those designed, constructed and utilized in, and accessory to, research, education, hunting, and naturalistic uses of the property. Any such construction must be planned for in the Management Plan and approved by the Grantors and Grantee. Similarly, removal of existing structures must be planned for in the Management Plan and approved by the Grantors and Grantee. There shall be no compulsion to remove existing structures.

13. Signs and Billboards - Display of billboards, signs or other advertisements is not permitted on or over the Catlett Islands, except to state the name and/or address of the owner, to provide notice of designation as a Chesapeake Bay National Estuarine Research Reserve in Virginia, and/or to post the property against trespass.
14. **Subdivision** - The Catlett Islands shall not be partitioned or subdivided.

15. **Excavation, Dredging, and Mining** - Excavation, dredging, mining and removal of loam, gravel, soil, rock, sand, coal, petroleum and other materials on or below ground or alteration of the topography of the land is prohibited on the Catlett Islands, except as related to the collection of geological data. Such activities shall be planned for in the Management Plan and approved by the Grantors and Grantee.

16. **Industrial and Commercial Activities** - No industrial or commercial activities shall be conducted on the Catlett Islands.

17. **Trash, Rubbish, and Waste** - There shall be no dumping of soil, trash, ashes, garbage, waste, or offensive materials on the Catlett Islands. There shall be no filling in of any wetland, pond or waterway, and such dumping shall be absolutely prohibited. Neither the Grantors nor the Grantee shall be responsible for unauthorized dumping.

18. **Off Road Vehicles** - Neither the Grantors or the Grantee shall authorize the operation of motor vehicles, trail bikes or all-terrain vehicles on the Catlett Islands, and such use shall be prohibited. The Grantors shall not be responsible for unauthorized use.

**ARTICLE IV. ENFORCEMENT AND REMEDIES**

19. **Injunctive Relief and Restoration** - Upon any breach of the terms of this Conservation Easement by the Grantors, their successors or assigns, or the Grantee, its successors or assigns, the breaching party may be subject to suit to: (1) enjoin any breach or enforce any covenant by temporary restraining order, preliminary and/or permanent injunction; (2) require that the property be restored promptly to the condition required by this Conservation Easement; or (3) seek any other remedy available, in law or equity, to assure compliance with the terms of this Conservation Easement.

20. **Perpetual Right of Enforcement** - Failure on the part of the Grantee to enforce any covenant or provision hereof shall not discharge or invalidate such covenant, or any other covenant, condition, or provision hereof, or affect the right of the Grantee to enforce the same in the event of a subsequent breach or default.

**ARTICLE V. GRANTORS’ RIGHTS**

21. **Grantors’ Rights** - The Grantors expressly reserve to themselves, their personal representatives, heirs, successors or assigns the right to:

   a. Continue the naturalistic uses of the Catlett Islands subject to the conditions set forth above;
b. Continue to hunt, fish, trap, and gather oysters on and around the Catlett Islands subject to applicable laws;

c. Improve, repair, restore, alter, remove, remodel, or replace permitted structures, provided that such activity is consistent with the Management Plan; and

d. Continue the use of the Catlett Islands for all purposes consistent with this Conservation Easement.

ARTICLE VI. RIGHTS OF GRANTEE

22. Rights of Grantee - To accomplish the purpose of this Conservation Easement, the following rights are conveyed to the Grantee by this Conservation Easement:

a. To preserve and protect the conservation values of the Catlett Islands;

b. To enter upon the Catlett Islands at reasonable times in order to conduct approved research and educational projects and to monitor Grantors' compliance with and otherwise enforce the terms of this Conservation Easement; provided that such entry shall be upon prior reasonable notice to Grantors, such entry shall be by water, and shall not unreasonably interfere with Grantors' use and quiet enjoyment of the Catlett Islands;

c. To give permission to research scientists to conduct research and educational projects approved for the Catlett Islands National Estuarine Research Reserve, provided that permittees carry and display an official permit issued by the Grantee and approved by the Grantors; and

d. To prevent any activities or use of the Catlett Islands that is inconsistent with the purposes of this Conservation Easement and to require the restoration of such areas or features of the Catlett Islands that may be damaged by any inconsistent activity or use.

ARTICLE VII. GRANTORS' AND GRANTEE'S LIABILITY

23. Upkeep by Grantors - The Grantors, their successors, and assigns further agree that they shall be responsible for upkeep of the Catlett Islands and shall hold the Grantee, its successors or assigns, harmless from any charges or liens arising out of upkeep or taxes.

24. Taxes - The Grantor agrees to pay any and all real property taxes and assessments levied by competent authority on the property.
25. **Grantors' Liability** - The Grantors, their successors, and assigns shall not be held responsible for injury to persons or damages to property arising out of any research or educational activity being conducted on the Catlett Islands pursuant to the Management Plan and this management agreement, except those arising out of the negligence of the Grantors, their successors, and assigns. All persons participating in research or educational activities at the Catlett Islands must sign a liability release form indemnifying and holding harmless the Grantors, their agents and guests, from any and all liability, claims, or expenses for injury, death or damages to self or property, including without limitation attorney's fees, resulting from or arising out of or in any way relating to the activities of the Grantee, any of its representatives, agents or guests, or resulting from, or occurring in the course of transit to or from the Catlett Islands. A copy of the release form appears as Exhibit D.

The Grantee has inspected the Catlett Islands and accepts their condition "as is" as described in Exhibit C. Any existing conditions or future conditions relating to permitted uses of the Catlett Islands by the Grantors, including, without limitation, any hunting and fishing activities, shall not constitute conditions giving rise to a claim of negligence on the part of the Grantors or to any potential liability for damage to property or injury to person. The Grantors' liability for all other activities on the Catlett Islands shall remain in effect.

26. **Grantee's Liability** - The Commonwealth of Virginia and all its agencies and institutions are covered by a self-insurance program as authorized by Section 2.1-526.8 of the Code of Virginia which is based upon a comprehensive general liability manuscript policy form as shown in Exhibit E. All persons who are not employees of the Commonwealth must receive approval from the Grantors and furnish evidence of liability coverage in the amount of $100,000/$300,000/$100,000 before participating in research or education activities at the Catlett Islands. All persons, whether employees of the Commonwealth or not, shall sign a liability release form referenced in paragraph 25 and appearing in Exhibit D.

**ARTICLE VIII. PUBLIC ACCESS**

27. **Public Access** - The granting of this Conservation Easement does not grant to the public any right to enter the property. The Grantee's right of entry does not include access to the interior of buildings or structures. All other protections against trespass by the public shall remain in effect.

**ARTICLE IX. MISCELLANEOUS**

28. **Assignment, Transfer, and Reversion** - The Grantee may assign its rights under this Conservation Easement to the Virginia Institute of Marine Science in such manner as to achieve the purposes and conditions herein. If any such assignee shall cease to exist or abandon this Conservation Easement or the rights and duties of enforcement herein set forth, or if proceedings
are instituted for condemnation of this Conservation Easement, the easement and rights of enforcement shall revert to the Grantee. If the Grantee shall be dissolved and if the terms of the dissolution fail to provide a successor, then the Court shall appoint an appropriate successor as Grantee.

The Grantors agree for themselves, their personal representatives, heirs, successors, and assigns to send in writing to the Grantee the names and addresses of any party to whom the Catlett Islands is to be transferred at the time said transfer is executed. The Grantee agrees to hold this Conservation Easement exclusively for conservation purposes, and that it will not transfer the Conservation Easement in exchange for money, other property, or services. This provision shall not preclude the Grantee from using the monetary value of any donations or gifts from the Grantor as match for money, other property, or services that will contribute to fulfilling the objectives of the Management Plan or the terms of this Conservation Easement.

29. Relationship of Easement to Property Value - The Grantors and the Grantee agree that the donation of the Conservation Easement gives rise for purposes of this paragraph to a property right, immediately vested in the Grantee with a fair market value that is at least equal to the proportionate value that the Conservation Easement bears to the value of the Catlett Islands at the time of the gift.

30. Eminent Domain - Whenever all or part of the Catlett Islands are taken in the exercise of eminent domain and such taking abrogates the restrictions imposed by this Conservation Easement, the Grantors and the Grantee shall join in appropriate actions at the time of such taking to recover the full value of the taking and all incidental or direct damages resulting from the taking. All expenses incurred by the Grantors and the Grantee in this action shall be paid out of the recovered proceeds.

31. Inclusion of Terms in Subsequent Deeds - The Grantors agree that the terms, conditions, restrictions and purposes of this grant will be inserted by them in any subsequent deed or other legal instrument by which the Grantors divest themselves of any interest in the Catlett Islands.

32. Construction and Severability - It is the intention of the parties hereto that this Conservation Easement, which is by nature and character negative in that the Grantors have restricted and limited their right to use the the Catlett Islands rather than granted any affirmative rights to the Grantee except as otherwise set forth herein, be construed at all times and by all parties to effectuate its terms, conditions and purposes. If any provision of this Conservation Easement or the application thereof to any person or circumstance is found to be invalid, the remainder of the provisions of the Conservation Easement and the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected thereby.
33. Notification - The Grantors agree to notify the Grantee in writing, before exercising any reserved right the exercise of which may have an adverse impact on the conservation interests associated with the Catlett Islands. Any notices by the Grantors to the Grantee pursuant to any provision hereof shall be sent by registered or certified mail, return receipt requested addressed to Mr. John W.C. Catlett, P.O. Box 148, Wicomico, Virginia 23184.

IN WITNESS WHEREOF, the Grantors and Grantee have hereunto set their hands and seals the day and year above written.
